

## Setting up Bluetooth - Ericsson T68i + PALM (OS 3.5)

The PALM will require the installation of a PALM Bluetooth card prior to the pairing with the T68(i)

### 1. Configuring the T68i

Switch on Bluetooth and select discoverable, to do this:-

Press the Ericsson T68i joystick to display the icon screen then press **"8"**, **"4"**, **"4"**, **"1"** – highlight **"On"**, then press **"Yes"**, **"no"**, **"1"**.

The phone's Bluetooth radio is now switched on and waiting (for three minutes) for the PALM Bluetooth radio to set up a connection.

If you ever need to select "discoverable" again press the Ericsson T68i joystick to display the icon screen then press **"8"**, **"4"**, **"1"**

### 2. Configuring the PALM

Insert the Bluetooth card in the memory slot in the PALM.

On the PALM select:

**"v"** (category selection - top right of screen), **"System"**

**"Prefs"** icon

**"v"** (category selection - top right of screen), **"Connection"**

Select **"Edit"** and then tap next to "Device"

The PALM will now search for Bluetooth devices within range and then display a list of devices.

Select your **phone** from the list and tap **"ok"**, **"Yes"**

The PALM will now request a passkey – **enter any four digit number** and then press **"OK"**.

The T68i will now request a passkey. Press **"2"** followed by **the same four digit number** as above then **"Yes"**.

The T68i will display "Pairing Succeeded"

Select **"OK"**, **"Yes"** on the PALM.
